

D:\Bitnami\wampstack\apache2\htdocs\lec\rne\dart example.dart

```
1 import 'package:http/http.dart' as http;
2
3 void main() async {
4   final response = await http.post(
5     Uri.parse('https://yourserver.com/status.php'),
6     body: {'activity': '정상'},
7   );
8
9   if (response.statusCode == 200) {
10    print('서버 응답: ${response.body}');
11  } else {
12    print('전송 실패: ${response.statusCode}');
13  }
14 }
15
```
